Re: Gary Summers
Case #9810105

Dear Mr. Summers:

The State of Ohio Counselor and Social Worker Board received a complaint against you regarding your conduct as a License Social Worker. The Board has the responsibility to ensure that its licensees maintain the highest professional standards and are not in violation of any of the laws and rules governing the practice of social work.

Based on the complaint, an investigation was initiated. However, in consideration of your willingness to surrender your license, the Board will not take any disciplinary action with regards to this case. The Social Worker Professional Standards Committee accepts your surrender of the license and your license is considered invalid as of September 17, 1999.

The case is now closed.

Sincerely,

Beth Farnsworth
Executive Director
